PROFESSIONAL SUMMARY

AI Automation Specialist and Backend Engineer with hands-on experience in building end-to-end automation systems, AI-powered dashboards, and scalable workflows. Skilled in LLM integration, agent development, and business process automation, with a strong foundation in cybersecurity and system design. Proven ability to reduce manual operations by 80%+ and create centralized systems that enhance decision-making and operational efficiency.

EXPERIENCE

- AI Automation Specialist

Maalibu Sphere Pvt. Ltd. | Sep 2025 – Present

 - Automated end-to-end business operations using 100+ workflows across n8n, Make, and GoHighLevel
 - Built and managed centralized systems integrating CRM, calling platforms, Slack, and internal tools
 - Developed a custom Slack Dialer App for real-time lead assignment and agent coordination
 - Designed multi-department dashboards for Call Center, Marketing, Sales, and Fulfillment tracking
 - Engineered a fully automated client onboarding system enabling instant access provisioning
 - Integrated cross-platform APIs to create a unified operational pipeline with minimal manual intervention
 - Improved productivity by 80%+ by eliminating repetitive workflows and manual processes
 - Built an AI-powered Executive Dashboard enabling CEOs and Product Managers to monitor teams, track KPIs, and gain actionable insights, centralizing complete company operations into a single intelligent interface
- Freelancer (AI Automation & Development)

Aug 2024 – Present

 - Developed WhatsApp automation bots, lead scraping tools, and custom ERP systems
 - Built business automation workflows using n8n, Gemini API, and Google Apps Script
 - Designed and deployed web applications with Flask, Node.js, and Firebase
 - Conducted security assessments and system hardening for client applications
 - Delivered automation solutions reducing operational overhead for small businesses
- Customer Support Engineer

Prompt ERP Ltd. | Dec 2023 – July 2024

 - Provided technical support and resolved ERP software issues for clients
 - Worked with SQL databases, debugging, and backend troubleshooting
 - Strengthened communication, issue diagnosis, and client-handling skills

PROJECTS

- AI Executive Dashboard (Maalibu - Internal System)

 - Built a centralized AI-powered dashboard for leadership decision-making
 - Integrated CRM, marketing, sales, and operations into a single platform
 - Enabled real-time insights, performance tracking, and automated reporting

● Cold Email Generator (AI SaaS Tool)

- Developed a full-stack web app using Flask & Bootstrap
- Integrated Google Gemini API for personalized email generation
- Deployed on cloud (Render)

→ *Link : emailpitchgenerator-bot.onrender.com*

● WhatsApp Bulk Messenger (Chrome Extension)

- Built automation tool using Selenium for bulk messaging
- Implemented secure session handling and input validation

→ *Link : github.com/jayeshkaithwas/WhatsApp-Web-Extension*

● NewsFlow

- Built AI-powered system to fetch, categorize, and summarize tech news
- Integrated n8n workflows + LLM APIs for automated insights

→ *Link : news-flow-liard.vercel.app/*

● Networking Python Toolkit

- Developed tools including TCP/UDP clients, proxy servers, packet sniffers
- Focused on network protocols and packet-level analysis

→ *Link : github.com/jayeshkaithwas/Networking-Python*

TECHNICAL SKILLS

AI, Automation & LLM Engineering

- Prompt Engineering, Advanced Prompt Design
- LLM Integration (Gemini, OpenAI, Claude, Local LLMs - LLaMA, Gemma)
- AI Agents Development (multi-agent systems, tool-based workflows)
- RAG Pipelines & Knowledge Base Systems
- n8n, Make (Integromat), Workflow Automation

Backend & Development

- Python, Node.js, Flask, PHP
- Firebase, REST APIs, Webhooks
- SQL, Database Design

Integrations & Tools

- WhatsApp APIs (WAHA, Evolution API, GoGHL.ai)
- Google Apps Script, Google Sheets ERP/CRM
- GoHighLevel (CRM Automation)

Cloud & DevOps

- Docker, Linux Administration
- AWS (deployment basics)
- GitHub, CI/CD fundamentals

Cybersecurity & Networking

- VAPT: Burp Suite, Nmap, Nessus, Acunetix
- OWASP Top 10, Secure Coding
- TCP/IP, DNS, Packet Analysis
- Malware Analysis (Static & Dynamic)

EDUCATION

- **Certified Software Programmer (CSP)**
IANT, Subhanpura | Sep 2023
 - C, C++, Python, PHP, HTML, Secure Programming
- **SSC (GSEB)**
GSFC School, Vadodara | May 2020
 - Percentage: 69.15%

CERTIFICATIONS

- Certified Ethical Hacker (CEH v12)
- Certified Appsec Practitioner (CAP)
- Certified Network Security Practitioner (CNSP)
- STAR Cyber Secure User - R 11
- Mastercard Cybersecurity Virtual Experience
- Tata Cybersecurity Security Analyst Job Simulation
